

*Mission Statement: Nominating Committee*

*It is our purpose and task to ensure there is a sufficient number of candidates to fill director's positions that are becoming vacant during the April Owners' Meeting. We also are charged with the task of running a smooth and fair campaign season and election. It is not our purpose to select or forbid any eligible candidate from nomination. We will merely seek to uphold and confirm the one eligibility requirement of being an owner in good standing. Our goal is to guide candidates through the campaign and election process and to make sure each candidate is well informed regarding the campaign and election process as well as the expectations and responsibilities of a ROA board member. The chairman of the Nominating Committee will be in charge of the election and results portion of the Owners' Meeting and will facilitate the election of the new president by the new board.*
